**THE BENEVOLENT SOCIETY.**

**THE BENEVOLENT SOCIETY OF NEW SOUTH WALES** last year completed a hundred years of service to the community. The society, which was founded in 1814, has since that time been engaged in a wide range of benevolent work, including the establishment of hospitals, the provision of relief to the poor, and the promotion of education and industry.

The society's annual meeting was held on the 21st inst., at the Sydney Town Hall, and was attended by a large number of guests. The meeting was presided over by the Hon. J. H. Hall, M.L.A., and was a most successful one.

The society's work is carried out through a number of committees, including the Finance Committee, the Education Committee, and the Relief Committee. These committees are responsible for the management of the society's funds and for the execution of its various projects.

The society's annual report, which was presented at the meeting, shows that the society has made great progress in its work during the past year. The total income for the year was £10,000, and the total expenditure was £8,000. The society's assets at the end of the year were £150,000.

The society's work is carried out in a most efficient and economical manner, and it is a pleasure to see the progress that it has made in its century of service to the community.

**THE DOCTORS.**

**THE DOCTORS' ASSOCIATION** has issued a statement regarding the proposed changes to the Medical Act, 1903. The association is opposed to the proposed changes, which would give the Government the right to appoint and dismiss medical officers at will.

The association argues that the proposed changes would be a serious blow to the independence of the medical profession. It claims that the Government would be able to appoint and dismiss medical officers without regard to the wishes of the medical profession, and that this would be a serious threat to the quality of medical care.

The association has asked the Government to withdraw the proposed changes, and has offered to negotiate with the Government on other matters if the proposed changes are withdrawn.

The Government has refused the association's request, and has said that it will proceed with the proposed changes. The association has now decided to take legal action against the Government.

The association has asked the High Court to issue a writ of prohibition, which would prevent the Government from appointing and dismissing medical officers without the consent of the association.

The case is now before the High Court, and it is expected that a decision will be made in the near future.

**THE AUSTRALIAN FUND.**

**THE AUSTRALIAN FUND** has issued a statement regarding the proposed changes to the Medical Act, 1903. The fund is opposed to the proposed changes, which would give the Government the right to appoint and dismiss medical officers at will.

The fund argues that the proposed changes would be a serious blow to the independence of the medical profession. It claims that the Government would be able to appoint and dismiss medical officers without regard to the wishes of the medical profession, and that this would be a serious threat to the quality of medical care.

The fund has asked the Government to withdraw the proposed changes, and has offered to negotiate with the Government on other matters if the proposed changes are withdrawn.

The Government has refused the fund's request, and has said that it will proceed with the proposed changes. The fund has now decided to take legal action against the Government.

The fund has asked the High Court to issue a writ of prohibition, which would prevent the Government from appointing and dismissing medical officers without the consent of the fund.

The case is now before the High Court, and it is expected that a decision will be made in the near future.

**EDUCATION.**

**THE DEPARTMENT OF EDUCATION** has issued a statement regarding the proposed changes to the Medical Act, 1903. The department is opposed to the proposed changes, which would give the Government the right to appoint and dismiss medical officers at will.

The department argues that the proposed changes would be a serious blow to the independence of the medical profession. It claims that the Government would be able to appoint and dismiss medical officers without regard to the wishes of the medical profession, and that this would be a serious threat to the quality of medical care.

The department has asked the Government to withdraw the proposed changes, and has offered to negotiate with the Government on other matters if the proposed changes are withdrawn.

The Government has refused the department's request, and has said that it will proceed with the proposed changes. The department has now decided to take legal action against the Government.

The department has asked the High Court to issue a writ of prohibition, which would prevent the Government from appointing and dismissing medical officers without the consent of the department.

The case is now before the High Court, and it is expected that a decision will be made in the near future.

**GUARANTEE.**

**WALTER PITTAR, DENTIST**, has issued a statement regarding the proposed changes to the Medical Act, 1903. The dentist is opposed to the proposed changes, which would give the Government the right to appoint and dismiss medical officers at will.

The dentist argues that the proposed changes would be a serious blow to the independence of the medical profession. He claims that the Government would be able to appoint and dismiss medical officers without regard to the wishes of the medical profession, and that this would be a serious threat to the quality of medical care.

The dentist has asked the Government to withdraw the proposed changes, and has offered to negotiate with the Government on other matters if the proposed changes are withdrawn.

The Government has refused the dentist's request, and has said that it will proceed with the proposed changes. The dentist has now decided to take legal action against the Government.

The dentist has asked the High Court to issue a writ of prohibition, which would prevent the Government from appointing and dismissing medical officers without the consent of the dentist.

The case is now before the High Court, and it is expected that a decision will be made in the near future.

## ALLEGATIONS OF CORRUPTION.

## LONDON, Feb. 23.

The Parliamentary correspondence of the "Daily News" declares that the plan of the Government does not consist of the rejection of the Army (Annual) Bill, but of a series of attacks on the Government on the subject of corruption, the matters to be discussed including the Marconi scandal, the traffic in honours, and the Sir Stuart Macdonald case.

The resolution for the appointment of a committee to inquire into the Marconi scandal, which was introduced by the Prime Minister, will be a subject of discussion in the House of Commons on Wednesday. The Government will oppose the resolution, and report to what legislation is desirable to prevent corruption. Lord Carson will make a similar speech in the House of Lords, in favour of the appointment of a Royal Commission.

## WRECK OF THE MEXICO.

## A TERRIBLE NIGHT.

## LIFEBOAT CREW DROWNED.

## LONDON, Feb. 23.

This has been one of the most tempestuous weeks since the whole British coast being swept by gales.

A wind velocity of 80 miles an hour was recorded at Dover, and 40 sailing vessels had to seek shelter.

Many wrecks are reported. Lifeboats were and rocket brigades saved 15 lives at various points.

Further details regarding the wreck of the Norwegian vessel, which was driven on to the rocks at Dover, which was wrecked on the night of the 21st, were received from the coastguard. The vessel was driven on to the rocks, and the crew of four, who were drowned, spent a terrible night on the wave-swept rocks.

There has been no wind since Friday, and there is no sign of the weather abating. It is feared they will succumb before their rescue is possible.

The tempestuous weather has compelled the coastguard and the navy to attempt to rescue them, to return to port.

All the crew of the Petchard lifeboat, which capsized on the day of the wreck, were saved, and several of the bodies have been recovered. Five of the dead men were married, and one of them left a wife and two children.

The Mexico was bound from La Guayra, Venezuela, to Liverpool, with a cargo of sugar.

Feb. 23, 12.40 p.m.

The numbers of the crew of the Mexico have been rescued from the rocks.

## STATE IRONWORKS.

MESSRS. HOSKINS' OFFER.

FIRM ANXIOUS TO CLOSE.

"A GOOD PROPOSITION."

LITHGOW, Monday.

Messrs. Hoskins' offer to the Government

at the ironworks' picnic luncheon at Perth

on Saturday.

Mr. George Hoskins, in responding to the

toast of the firm, said that it was now

a big place, equipped with the latest ap-

paratus. They had been in Lithgow six years,

and had made extensive improvements to the

works, but there was much more to be done.

The firm, however, after 10 years of work,

was now offering the whole of its interests

to the State Government. It was practically

the will of the people that the works should

be nationalized, and the Government was

now having the opportunity to acquire the works as

a whole at a valuation.

Mr. Charles Hoskins said that whether the

firm or the Government ran the works, it

was the same, and that there would be

no strikes. The strike was a brutal and

unpleasant method of endeavouring to settle in-

dustrial disputes, and the sooner it was perma-

nently struck out of the Government, and

among the sections included was the largest

thing of its kind in the world, the pipe-making

works at Lithgow. They turned out more

pipes than the whole of the other manufac-

turers in Australia put together, and would

still do so, even if the Government started

at Lithgow.

They had recently a wrangle with Mr.

Griffith in regard to the contract for pipes

for the two or four years. Four years

conditions were finally decided upon, and then

Mr. Griffith stated that the Government

was practically giving the firm a free hand.

Whether that was so or not he could assure

them that the offer of the Sydney business

alone was a good proposition.

The firm would offer every facility for ar-

riving at a compromise. When they found a

lot of additional equipment necessary, in

a great measure had been remedied, and

now they had two blast furnaces, one

making pig iron for the manufacture

of pipes, and the other for the manu-

facture of steel rails. Prior to the unfor-

tunate disagreement between the Government

and the firm, they had been producing

£150,000 to £200,000 worth of goods every

month. This amount together with all

other contracts would go to the Govern-

ment.

When the firm took over the Lithgow works,

the freight bill to the Railway Department

for ore and other commodities used in the

industry amounted only to £200,000. It now

reached nearly £1,000,000. It was

## CHURCH AND STATE.

CATHOLICS DETERMINED.

SPEAKING AT A PRESENTATION TO FATHER POWER

at the Sacred Heart School Hall, Darlinghurst,

last night, Mr. H. C. Hoyle, Assistant State

Treasurer, declared that the education of the

mind without the education of the heart was

unsound and wrong in principle. Nothing

but the education of the heart could make a

true citizen, for true citizenship depended

upon the knowledge of right and wrong, upon

the knowledge of what belonged to them and

what belonged to their neighbour, and above

all, upon the duty that every human being

owed to the God who created him and re-

deemed him to be.

They could teach these things, he said, no-

where else but in the school, and it was of

no use mere arguing otherwise. In his or-

der, he said, the school was the place where

the child was brought up, and it was at the

throne of the Good Samaritan, and the

reasons he learned from them in the

school were as vividly before him as to-day

as when they were first imparted to him 10

years ago. As far as their means and their

numbers would enable them, Catholics in-

tended to go on as they had been going to

the future in the matter of education, for

they knew many must have their share of

him, and they knew that if he inducted

into the mind and heart the only true form

of citizenship their country would be great,

prosperous, and pure. Unless a country were

pure it could not be successful.

A well-known Protestant of this city, who

was opposed to Archbishop Vaughan and his

efforts for the perfecting of the system of

Catholic education, had told him that he

was not a Catholic, but he was a man of

letters, and he was a man of letters, and

he was a man of letters, and he was a

man of letters, and he was a man of

letters, and he was a man of letters, and

he was a man of letters, and he was a
